SUBJECT INDEX

Abortion
habitual, 60, 356
spontaneous, pathogenesis and treatment of, 193
threatened, treatment with ovarian hormone, 60
Acetylcholine, 117, 160
Addison's disease, *see also* Adrenal
renal excretion of water and electrolytes in, 76*
therapy, 156, 163
Adrenal, *see also* Addison's disease and Steroids
amyloidosis of, 58
cortex
carcinoma, influence on gonadectomized mice, 237, 238
virilization in, 156
clinical action of extracts of, 59
deficiency
and nephrogenic hypertension, 236
in pregnancy, 242
renal failure in, 156
treatment of, 163*
hormonal assay, 58
17-ketosteroids, excretion by diabetics, 220*
stimulation by substances in female human urine, 236
tumor, diagnosis of, 156
sex precocity and virilism with, 355
virilism and 17-ketosteroids, 356
extirpation, effect on thymus, 237
medulla, pheochromocytoma, 396*
Adrenalin, *see* Epinephrine
Alloxan
diabetes, induced by, 435
pancreatic islet cells and kidney, action on, 196
Amaurotic family idiocy, endocrine glands in, 113
Androgens, *see also* Steroids and Testosterone
therapy
in control of carcinoma of prostate, 157
in failure of Leydig-cell function, 27*
in malignant disease of female genitalia, 288
Androstenetriol, in normal human urine, 113
Angina pectoris, treatment with testosterone propionate, 305*
Arrhenoblastoma, 158
Aschheim-Zondek test, reliability of in pregnancy, 419*
Ascorbic acid, gonadal stimulation with, 158
Association for the Study of Internal Secretions Notices, 54, 111, 192, 406
Asthenia, neurocirculatory, relation to Graves' disease, 245
Atropine, action on pancreas, 201

Balances, metabolic, data on calcium, phosphorus and nitrogen, 367*
Blood
plasma, protein-bound iodine in, 181*
sugar
hypoglycemia, functional, 323
spontaneous nervous and mental manifestations in, 98
levels in Bengal famine, 323
Bone disease, with parathyroid tumor, 437
Burns, thermal, in diabetes mellitus, 325

Calciferol, metabolic effects, in case of pseudohypoparathyroidism, 326
Calcium, metabolism of, 367*
Carbohydrate metabolism
modifications in hyperthyroidism, 244
tests of, 59
Cancer, hormone treatment of, 114
Cardiovascular system, in thyroid insufficiencies, 236
Children
growth and development of, 57
thyroid disorders of, 107*
Circulation, pancreatic, 324
Climacteric, male, 60
Coma, diabetic, 198
Creatinuria
due to methylated steroids, 243
in thyrotoxicosis, 161
Cretinism, in rats, induced by thiouracil, 161
"Cundeamor," effect in diabetes mellitus, 324
Cushing's syndrome
alkalosis in, 61*
Crooke's changes in, 70*
pathogenesis of, 117, 241

Demucification, a rapid method for in staining of seminal smears, 286*
Diabetes mellitus
alloxan and, 435

Items marked with an asterisk (*) refer to original articles; others are abstracted

in children, 434
coma, 198
treatment, 199
with glucose, 345*
crystalline lens in, 196
"cundeamor," effect of, 324
differential diagnosis of, 322
excretion of 17-ketosteroids in 220*
experimental, 289
eye and, 326

in virile women, 356
propylene glycol, menstruum for administration of, 241
methylated, creatinuria due to, 243
tuberculous infection, enhanced in guinea pig by, 337*
Stilbestrol, *see also* Diethylstilbestrol
influence on lactation, 239
therapy
in advanced breast cancer, 194
in carcinoma of prostate, 159
in gonococcal vulvovaginitis, 356
Struma ovarii, clinical significance of, 112
Sugar, tolerance, effect of prolonged physical inactivity on, 238
Sulfonamide, treatment of gonococcal vulvovaginitis, 356

Temperature, basal, relationship to cyclic variations in quantity of cervical mucus, 116
Terminology, 56
Testis
atrophy, in case of gynecomastia, 113
Leydig-cell
failure of, 1*
preparations, clinical use of, 115
Seminiferous tubules, 1*
Testosterone
effect on
nitrogen balance in thyrotoxicosis, 161
renal functions in man, 288
methyl
therapy, in post-traumatic Simmonds' disease, 363*
metrotrophic action of, 356
propionate
effect on losses incident to inadequate dietary intake, 327*
therapy, in angina pectoris, 305*
in endometriosis, 114
therapy, in recurrent mammary cancer, 242
in senile pruritus, 412*
Tetany, idiopathic, case of with epilepsy, 147*
Theca interna, hyperplasia of with hirsutism, 158
Thiobarbital, in the treatment of Graves' disease, 345*
Thiouracil, 245
causing cretinism in rats, 161
changes in the treatment of toxic goiter produced by, 361
derivatives of greater activity in treatment of hyperthyroidism, 424*
effect on human tissues, 403*
on protein-bound plasma iodine, 181*
hyperthyroidism and, 245, 273*, 358, 360
its use in the preoperative treatment of severe hyperthyroidism, 439
observations on 78 thyrotoxic patients treated with, 259*
preoperative preparations of patients with severe hyperthyroidism, 357
unusual reactions following the use of, 359
use of in the treatment of patients with hyperthyroidism, 439
Thiourea
analysis of effect in pregnancy and on the development of offspring of the rat, 359
experimental observations on normal subjects, 438
changes in the organs of female C3H mice receiving 438
Thymus
extract of and acetylcholine, 160
influence of adrenal extirpation upon, 237
Tropic or trophic?, 113
Thyroid gland

Items marked with an asterisk (*) refer to original articles; others are abstracted

antithyroid agents
paraxanthine, 217*
tetramethylthiourea and diethylthiourea, 210*
therapy, 245, 360
thiobarbital in the treatment of Graves' disease, 345*
thiouracil derivatives of greater activity, 424*
cretinism, induced in rats by thiouracil, 161
cytology, fluorescent and histochemical reaction of, 160
diabetes and, 359
disorders of
in children, 107*
protein-bound plasma iodine in, 181*
dysfunction, aspiration biopsy in the evaluation of, 244
excision of influence on the prominence of the eyes in the guinea pig and in man, 358
exophthalmos, the influence of thyroidectomy in guinea pigs and in man on, 358
hyperthyroidism
carbohydrate metabolism in, 244
changes in the treatment of produced by thiouracil, 361
creatinuria in, 161
effect of testosterone in, 161
electrophoretic analysis of plasma proteins in, 244
exophthalmic goiter in children, 360
medical management of, 358
modifications of carbohydrate metabolism in, 244
neurocirculatory asthenia, relation to, Graves' disease, 245
pregnancy and, 161
rationale of calcium, phosphorus and vitamin D in clinical, 439
self-induced, methods of detecting, 359
therapy
preoperative, with thiouracil, 357
with thiouracil, 358
with thiouracil in 78 cases, 259*
thiobarbital as an antithyroid agent in the treatment of, 345*
thiouracil in the control of, 245, 273*
use of thiouracil in the treatment of patients with, 439
hypothyroidism, cardiovascular system in, 236
in childhood, 437
congenital, mental development in, 437
electrophoretic analysis of serum in, 244
low iodine intake, 116
physiology of, 162
preparations, experiences with the use of, 359
feeding of and diabetes, 118
treatment of congenital hernia with, 245
influence of on pregnancy and parturition in the rabbit, 438
Tuberculosis
diabetes and, 195
enhancement of in guinea pig by steroid hormones, 337*

Urine
analysis
for 17-ketosteroids in diabetics, 220*
in pediatrics, 195
for steroid substances, 291*
excretion of substance stimulating adrenal cortex, 236
titres of gonadotropins of aged eunuchs, 203*
Uterus
endometriosis, therapy with testosterone propionate, 114
endometrium, hyperplasis, 99*
functional bleeding
therapy with ovarian hormone, 60
intermittent contractions of in the process of labor, 288
metrotrophic action of testosterone, 356
spasmolysant action of magnesium ions on tetanic contractions of, 288
tumors
carcinoma of endometrium, relationship to granulosa-cell tumors, 158
fibromyomas, 115

Vagina, contents of newborn, 157
cornification phases in pregnancy, 34*
diseases of, treatment with natural and synthetic estrogen, 60
mucosa, artificial, 157
Vaginal smear
in cancer of the uterus, 40*
in pregnancy, 34*
Virilism, *see also* Adrenal, cortex, tumor
of the adult woman, 356
due to adrenal carcinoma, 156
17-ketosteroids in, 356
sex precocity, adrenal cortical tumor, 355

Items marked with an asterisk (*) refer to original articles; others are abstracted

Vitamin D, parathyroid tetany treated with massive doses of, 361
Vitamin E, in menopause, 355
Vulva, pruritus of, postmenopausal, 355
Vulvovaginitis, gonococcal sulfonamide and stilbestrol therapy in, 356

Waterhouse-Friderichsen syndrome, hemorrhage in adrenals, 58
Women, fertility of, 155

Xanthoma diabeticorum, in gigantism-acromegalia syndrome, 193

Items marked with an asterisk (*) refer to original articles; others are abstracted
